

INDEX

Purpose	1
Introduction	1
Infection surveillance, prevention, and control in Home Care	1
Infection Control Committee Members	2
Infection Control Committee Minutes (sample).	3
Definitions	4
Infection Control Program/Goals	5
Exposure Control Plan	9
Home Care Acquired Infections	11
Infection Control Policy	15
Other Infection Control Measures	16
Infection Control Orientation.	17
Annual In-services for infection control	18
Infection Control education/training	19
Infection Control training outline	21
Universal precautions for all health care workers	23
Guidelines for patients know to be HIV positive	25
Guidelines for employees known to be HBV infection	26
Employee Health requirements/Hepatitis B vaccination	27
Hepatitis B Fact sheet	28
Information voluntary authorization for the administration of Hepatitis B vaccine	30
Post exposure evaluation and follow-up procedures	31
Post occupational exposure to blood bone pathogen evaluation	33
Employee exposure incident	34
Referral for evaluation	35
Employee exposure to an infectious disease	36
High risk employees	37
Exposure determination	38
Identification TB High Risk Exposure Job Classification	39
Diseases usually considered reportable	40
Employee protective equipment	41
Disposal of needles, syringes and sharp items.	42
Respiratory protection plan.	44
Policies for care of patients with suspected TB infections.	47
Policies for care of staff with suspected TB infections.	48
Requirements for the selection and use of respiratory devices.	50
US Department of Labor program highlights Enforcement Policy on Tuberculosis	52
Specific OSHA standards application	54
Home Health infection surveillance report	55
Universal/Standard Precautions	55b
Policy on Persons with confirmed or suspected disabling or infectious diseases, including AIDS	56
Personnel Infection Control	58
Prevention & Treatments of Decubitus/Wounds	59
Procedure for dressing change	60

Emergent Care for Wound Infection	61
Discharge to Community needing Wound Care or Medication Assistant	62
Adverse outcome report, increase in numbers of pressure ulcers	63
Decline in Wound status	65
Policy on Waste Disposal	66
Infection Control & Safety Management: The Bag Technique	67
Bag Technique Competency Evaluation	69
NOSOCOMIAL INFECTIONS	70
Educational Materials	85
Infection Prevention and Control addressing Prioritized Risks	90
Limiting the spread of Infections Associated with Procedures	94
Limiting the spread of Infections Associated with Medical Equipment, Devices, and Supplies. . .	95
Minimize opportunity for transmission of pathogens to patients and health care workers.... .	96
Implement Best Practices or Evidence-Based Guidelines to Prevent Central Line associated Bloodstream Infections	97
Catheter Hub disinfection protocol	101
Performance Measure Table (Evaluation for Infection) Patients with Central venous catheter inserted	103
Agency Challenges	104
Teaching aids in Preventing Infection	106
Tuberculosis Training Form	116
Infection Control Training Form	117
Hand Hygiene improvement Plan	118
Hand Hygiene CDC guidelines	156
Process for Investigating Outbreaks of Infectious Diseases	159
Improvement Influenza vaccination Plan	163
Infection prevention data collection forms.	181
